

### CONFIGURAZIONE / CONFIGURATION / KONFIGURATION

| Descrizione meccanismo                     | Mechanism description            | Getriebebeschreibung                     | RIG04 30-310 VX VCM SA |
|--------------------------------------------|----------------------------------|------------------------------------------|------------------------|
| Legge di moto                              | Motion law                       | Bewegungsgesetz                          | 30-310 (Ca=5.528) -    |
| N° cicli                                   | Number of cycles                 | Anzahl der Schaltzyklen                  | 3                      |
| Versione uscita                            | Output version                   | Ausführung Schalttisch                   | VCM                    |
| Piano albero entrata                       | Input shaft projection           | Seite mit Antriebswelle                  | SA                     |
| Predisposizione riduttore                  | Gearbox pre-arrangement          | Einrichtung für Getriebe                 | 28/FL                  |
| Posizione riduttore                        | Gearbox position                 | Anbaulage des Getriebes                  | -                      |
| Forature sul piano superiore della scatola | Holes on the housing upper plane | Gewindebohrungen in der Gehäuseoberseite | No                     |
| Forature opzionali di riferimento          | Optional reference holes         | Optionale Stiftlochbohrungen             | No                     |

### RIDUTTORE / GEAR UNIT / GETRIEBE

| Descrizione riduttore  | Gear unit description   | Getriebebezeichnung        | - |
|------------------------|-------------------------|----------------------------|---|
| Predisposizione motore | Preset for IEC motor    | Verbindungen mit IEC-Motor | - |
| Rapporto riduzione     | Gearbox reduction ratio | Getriebeübersetzung        | - |
| Taratura               | Adjustment              | Auslösemoment              | - |
| Codice riduttore       | Gear unit code          | Getriebecode               | - |

### MOTORE / MOTOR / MOTOR

| Descrizione motore   | Motor description     | Motorenbeschreibung   | - |
|----------------------|-----------------------|-----------------------|---|
| Freno                | Brake                 | Bremse                | - |
| Tensione e Frequenza | Voltage and Frequency | Spannung und Frequenz | - |
| Potenza              | Power                 | Leistung              | - |
| Codice motore        | Motor code            | Motor Code            | - |

### MICRO / MICRO / ENDSCHALTER

| Tipo gruppo micro | Micro assembly type | Typ der Endschalterbaugruppe     | - |
|-------------------|---------------------|----------------------------------|---|
| Versione micro    | Micro version       | Version der Endschalterbaugruppe | - |
