

CONFIGURAZIONE / CONFIGURATION / KONFIGURATION

Descrizione meccanismo	Mechanism description	Getriebebeschreibung	RIG04 12-180 VLRA VCS DA
Legge di moto	Motion law	Bewegungsgesetz	12-180 (Ca=5.528)
N° cicli	Number of cycles	Anzahl der Schaltzyklen	1
Versione uscita	Output version	Ausführung Schalttisch	VCS
Piano albero entrata	Input shaft projection	Seite mit Antriebswelle	DA
Predisposizione riduttore	Gearbox pre-arrangement	Einrichtung für Getriebe	28/FL LCB
Posizione riduttore	Gearbox position	Anbaulage des Getriebes	D1
Forature sul piano superiore della scatola	Holes on the housing upper plane	Gewindebohrungen in der Gehäuseoberseite	No
Forature opzionali di riferimento	Optional reference holes	Optionale Stiftlochbohrungen	No

RIDUTTORE / GEAR UNIT / GETRIEBE

Descrizione riduttore	Gear unit description	Getriebebezeichnung	RMI 28/FL LCB
Predisposizione motore	Preset for IEC motor	Verbindungen mit IEC-Motor	56B14
Rapporto riduzione	Gearbox reduction ratio	Getriebeübersetzung	1:20
Taratura	Adjustment	Auslösemoment	13.0 Nm
Codice riduttore	Gear unit code	Getriebecode	3109131

MOTORE / MOTOR / MOTOR

Descrizione motore	Motor description	Motorenbeschreibung	MA56B4B14
Freno	Brake	Bremse	Yes
Tensione e Frequenza	Voltage and Frequency	Spannung und Frequenz	230/400V 50Hz - 277/480V 60Hz
Potenza	Power	Leistung	0.09 kW
Codice motore	Motor code	Motor Code	3101634

MICRO / MICRO / ENDSCHALTER

Tipo gruppo micro	Micro assembly type	Typ der Endschalterbaugruppe	CFE
Versione micro	Micro version	Version der Endschalterbaugruppe	-
