

CONFIGURAZIONE / CONFIGURATION / KONFIGURATION

Descrizione meccanismo	Mechanism description	Getriebebeschreibung	RIG06 12-150 VS VCT DA
Legge di moto	Motion law	Bewegungsgesetz	12-150 (Ca=5.528)
N° cicli	Number of cycles	Anzahl der Schaltzyklen	1
Versione uscita	Output version	Ausführung Schalttisch	VCT
Piano albero entrata	Input shaft projection	Seite mit Antriebswelle	DA
Predisposizione riduttore	Gearbox pre-arrangement	Einrichtung für Getriebe	-
Posizione riduttore	Gearbox position	Anbaulage des Getriebes	-
Forature sul piano superiore della scatola	Holes on the housing upper plane	Gewindebohrungen in der Gehäuseoberseite	No
Forature opzionali di riferimento	Optional reference holes	Optionale Stiftlochbohrungen	Yes

RIDUTTORE / GEAR UNIT / GETRIEBE

Descrizione riduttore	Gear unit description	Getriebebezeichnung	-
Predisposizione motore	Preset for IEC motor	Verbindungen mit IEC-Motor	-
Rapporto riduzione	Gearbox reduction ratio	Getriebeübersetzung	-
Taratura	Adjustment	Auslösemoment	-
Codice riduttore	Gear unit code	Getriebecode	-

MOTORE / MOTOR / MOTOR

Descrizione motore	Motor description	Motorenbeschreibung	-
Freno	Brake	Bremse	-
Tensione e Frequenza	Voltage and Frequency	Spannung und Frequenz	-
Potenza	Power	Leistung	-
Codice motore	Motor code	Motor Code	-

MICRO / MICRO / ENDSCHALTER

Tipo gruppo micro	Micro assembly type	Typ der Endschalterbaugruppe	-
Versione micro	Micro version	Version der Endschalterbaugruppe	-

Description

RIG06 12-150 VS VCT DA F

Le dimensioni del singolo meccanismo RIG, corrispondono all'ultima versione del catalogo disponibile sul sito www.cofil.it
The dimensions of the single RIG mechanism, correspond to the latest version of the catalogue available on the website www.cofil.com
Die Abmessungen des einzelnen RIG-Mechanismus, entsprechen der neuesten Version des Katalogs der auf der Website www.cofil.com verfügbar ist
